WIT AND HUMOR.

When the celebrated Dunning, after [204]

"If that be true, I'll go home and [204]

"You had better go home and read [204]

Some men say, "If I choose to drink [204]

is my own business." If a man chooses [204]

to drink it is his own business, but it is [204]

somebody else's business if it is the [204]

business of every man who has a son or [204]

daughter; every man who has an interest [204]

in that nation of society, in which the [204]

drinking man is the prevailing [204]

factor. It is impossible to grow in [204]

society. Poverty and civilization never go [204]

together. [204]

AN Ounce of PREVENTION BETTER THAN A POUND [204]

OF CURE. [204]

KEEP YOUR FEET DRY, [204]

AND [204]

Preserve your Health [204]

The long sought for principle of making [204]

London perfectly Water-proof, with- [204]

out impairing it, has at [204]

LAST BEEN DISCOVERED!!! [204]

THE DAILY HERALD.

BATAVIA, Wednesday, June 16, 1909.

Subscription Price 4 cents per week.

OSCAR C. DIBBLE.

Editor and Proprietor.

For the READING MATTER on every page of the Herald.

The Health of the Town.

We are really infected with the idea that Batavia is one of the healthiest towns in Western New York. We hear of but few cases of illness; and there are either the result of overexposure, high living or excessive exposure to the inclemency of the weather. And another sign is, the fact of the town keep the houses, and are only now and then seen riding about, and that at a very moderate pace; and another sign is, they as a class are usually seen in their slips at Church on Sundays and on very quiet all through service and around town; whereas had they much practice their slips would often be vacant, at least of themselves. We do not bring their argument, by any means, to have the Church stay at home when they can fill their places at church, just as well as not but to show our readers clearly that our town is healthy!

Rail Accident.

A serious accident occurred at the Bat. Depot yesterday, in the Switchman on the N. Y. Central Road, on changing off the cars upon another track, the rope employed in the operation was extended or drawn across one of the cars, in such a manner as to entangle his arm in a very shocking manner; in which case amputation was indispensable. His name is William.

Fourth of July.

The adjourned meeting for celebrating the Fourth of July, met at the Eagle Hotel last evening. The report of the Finance Committee was read, from which it appears that One Hundred and Fifty Dollars has been subscribed by our citizens for the celebration. Messrs. Ira Barker and Hilda McLaughlin, were added to the Committee to select subscriptions, and the meeting adjourned to meet at the Eagle Hotel on Thursday evening next at 8 o'clock P. M.

GEO. D. KENTON, Sec'y pro tem.

A close of Prof. Hughes, of Lima, N. Y., who was of his house, named Williams, became ill, as it happened, on Sunday night, 12th inst., and died, and no one knows when and how it has been heard of.

The schools are adjourned and hundreds of people are out in search of the last one left to be without effect. The unfortunate girl with away in a calico dress, striped stockings, cloth gaiters, and without shoes; her light hair and eye-brows, is aged about twenty years, and may resemble the name of Frank often as she has been before when similarly afflicted.

Bath.—We published yesterday a paragraph stating upon the authority of the Finger Falls Gazette that a Miss Johnson was lost on Goat Island last week, and could not be found. In common with most of the papers in this vicinity we were told, as will be seen by the following explanation of the affair given by the Buffalo Reporter: "She went to Goat Island with a young man by the name of Ford. He returned to the Gateway Hotel without Miss Johnson, but in her place was accompanied by a lady, named Ford. Miss J. has been lost and is now somewhere at Mrs. F. They were married on that island."

Cure This Devil.—One time one and have to.—A terrible case of hydrophobia in Connecticut is reported, as good authority, to have been cured by administering a medicine known to batavia physicians as the Third Preparation, which is composed of opium and the thinnest of lobelia and opium—making it very strong of the thinnest, and giving sufficient doses to produce a thorough emesis. The patient drew from his stomach a large quantity of sticky mucus, and from that moment the system cleared.

NEWS SUMMARY

During last Thursday night some malicious persons cut down 250 peach trees in the orchard belonging to Mr. Harvey, constable in Symmes township, Ohio, and destroyed 250 graftings.

Dr. Carter was shot dead Tuesday at Albany, Mo., by Mr. Evans, who had detected him in criminal relations with his wife. Mrs. Evans confessed her guilt.

The Harrisburg Telegram says a child seven years old, and weighing two hundred and fifty pounds, jumped up the Cumberland Valley Railroad, the other day accompanied by his father and mother.

The number of coffins taken up and burned in the New York Potter's Field, is 27,000. What an idea of intensified misery the fact suggests. But it happened.

W. H. Burroughs who died on the 9th inst. was a partner in the house of Stewart & Co., New York. He was a Dublin boy. On the books of the company was a credit to his account of \$700,000. He was a bachelor; he died in the Catholic faith.

We propose by our exchanges that in all the principal cities and towns throughout the Union, more than ordinary preparations are being made for celebrating our National Anniversary.

Frank Helen Darrow, an adopted daughter of Policeman Darrow, aged 10, died very suddenly, in a school, in Syracuse, yesterday. Information was brought to the school, of the sudden death of a friend, and as soon as she heard it she was seized with a suffocating sensation, and died in the school.

At the death of the Grand Duke John, whose decease has just occurred, and who is the reputed father of the young Emperor of Austria, the gossip again revive the old current belief, to the no small annoyance of the Arch Duchess Sophia and her friends, that the real father of Francis Joseph was the Duke de Reichstadt, whose remains are entombed at Vienna.

The Davenport (Iowa) Democrat says that an official letter from Kossuth to a Hungarian exile at that place has been received, requesting him to take immediate steps towards embarking for Hungary. From the tenor of the letter it would appear that Kossuth was engaged in raising an army.

An Australian, from the number of murders committed in that southern region, thinks that Melbourne may be the place which Shakespeare spoke of when he says "that harbor from which no traveler returns."

A young lady on being asked if she intended wearing that finger ring to church, said she did not intend to wear anything else. If she kept her word, she must have had a cold time of it.

R. A. Agard, in Hartford, Conn., was handling a bottle of beer when the cork flew out striking him with great force in the eye. He is confined to his bed and it is feared that the brain is injured.

The N. Y. Tribune reviews all its intelligence respecting the late fight, and concludes that great damage has been done, but that the loss is greater in labor than in gain. Where the wheat is killed other crops will be put in. Unless corn is sown forward, it was not entirely killed.

Mrs. Betts has quit. She disappeared from Nanuet, Ct., some time since and the general opinion was that she had eloped with a fellow named Tomlinson. She has returned, but declines explaining the cause of her elopement. She says that she left home because she wanted to, and came back because she wanted to.

—Jacob White was at work in a field at Harrisburg, Conn., Grant Co., Wis., when, seeing a storm coming on, he started for his house, but before reaching it, he was felled to the earth, perfectly insensible. On his regaining sensibility, it was found that all his extremities were paralyzed. The Whites say she had partly recovered, but his case is considered rather hopeless.

The Supreme Court of Michigan has affirmed the decision of an inferior court, that a woman has a perfect right to control in all respects all property acquired by her before or after marriage, that belongs to her, independent of her husband.

A couple of officers from Buffalo have gone to Canada in search of a man named Hill, who was employed as a brakeman on the Central Road who is alleged to have committed a rape upon a little girl 10 years old, at the Wadsworth House, Buffalo. Hill had a wife and child residing in Syracuse. It is said that the crime was committed last Sunday.

We are told of cannon that have had effect at five miles, and that a great number of light field-pieces are experimented by a few guns carrying heavy shot. The stored ball has passed away before the cannon and the names of Mink, Jacob, Colt, Sharp and Armstrong stand as shining lights amid the din of cannon and the smoke of powder.

ICE IN CANADA.—The St. Catharines Journal of Saturday, says that water in the Canal at Thorold, was frozen half an inch in thickness by the frost of the previous evening.

An American merchantman is lying at Boston, not daring to proceed on the course to which he had been ordered, viz: St. John, N. B. to load a cargo for England. This explains what the French War steamer is waiting for, off Halifax, which has been two or three times men and mistaken for an expected arrival from Europe.

Col. Loring has obtained permission from the Secretary of War, to repair to Europe to assist in the Italian struggle. He will sail for Havre in the steamer of the 25th inst. The Colonel is down in the Army Register as head of the Regiment of Mounted Rifles which is distributed throughout the Department of New Mexico. He entered the service as Captain in 1846. He is not a graduate of West Point.

A man named William Patterson, who was discharged from custody by the Police Magistrate at Windsor, C. W., on Friday, for want of evidence to convict him of a charge of larceny from the person of a female passenger at the Great Western depot, the lady having gone on her way, was treated to a coat of tar on the same evening. He went into a saloon in the evening, when he was set upon by a number of persons who were present, and thoroughly debauched with tar. There being no feathers at hand the ornamental part of the operation was dispensed with. He was then taken to the wharf and placed in a small boat, an oarsman provided for him, and safely conducted to the American side of the river.

The day after the whiff in Morgan county, Ill., a half sheet of a letter written by a lady, Mrs. Route, to her husband, was found on the farm of Harry Morgan, in Richmond, Precinct, thirty-five miles from the place where it started—having been blown thither by the storm, which killed Mrs. Route, and demolished her house.

The Railroad difficulty has been settled. Under the new arrangement the passenger fare to Chicago goes up to \$22 and freight on cattle to 75 cents.—Police Sanchez has been sentenced to execution on the 2nd of July, for the murder of his wife's father.

IMPORTANT ITEM FROM THE SHAY OF FAMOUS.—Tight plain bodies, with a round waist and a belt, have supplanted the blouse. The blouse is now only admitted with a breakfast toilette! The next important news is that at Paris tight sleeves and short dresses (short in front) have come into fashion, and to be admitted into the best society, a lady must cut short her front hair, and wear it fringed. Bandeaux have been frowned down.

The French admit being 25,000,000 cartridges in the Crimea, and yet they did not hit 25,000 men, or even in a thousand. This shows that the risk of being shot is a battle is but little greater than the chance of being killed by lightning. It also shows that "sharp shooting" in Europe does not mean what it does in Kentucky. At the battle of New Orleans nearly every bullet fired by the Americans cost John Bull a life. In the same time it took the English to wound 8 men the Americans killed 1,200 men.

This shows that "sharp shooting" is confined to this country and is but little better known in European armies than the American bowie knife.

A Portland (Oregon) correspondent writes that during a late visit to Corvallis he witnessed three marriages where white men were the grooms and Indian squaws the brides. The whites had seized the squaws away from the Indian Reservation, and the Indian Agent sent soldiers to bring the runaways back. The white boys protested against being degraded of their citizenship (if), but were told that the squaws must go back to the reservation, unless they should be married. The whites themselves submitted themselves to the matrimonial noose, and the squaws were asked to the dignity of white men's wives.

GET WHAT YOU CAN!!

KEEP WHAT YOU GET!!! BY PLACING Green Sticks over your Vines and Vegetables, to draw them out, you can still have a

GOOD GARDEN! and by using "Mason's Patent" System, with nothing but "Mason's Patent" which are perfectly safe, without the use of
